

Jay:

Our experience with you and your company was excellent. From start to finish, you did a great job. The tile that you sourced matched the granite slab perfectly. Your installers were quick and precise. The finished job looks wonderful in our remodeled "granite" bathroom. We also thank you for recommending Barry Elzein of Tile and Marble Design. His work installing the granite tile was top notch and his contributions to the design of our shower and bathroom floor really added a lot. Feel free to use us as a reference anytime.
