Dear Jay,

I'd heard so many horror stories from people getting the wrong company to create their granite counter tops, that I was thinking about installing tile instead. We looked around and were not impressed with the granite companies we visited. They were either in a rush to close the deal or showed virtually no interest in our business.

You guys were different.

You took the time to answer all our questions about granite and spent a great deal of time showing us the different slabs in your warehouse. Even when we came back a week after ordering and changed our mind in favor of an entirely different granite, everything went smooth.

Your template cutter and the installers did a great job, and the granite fits perfect. We couldn't be happier with the results.

European Tile & Marble has my gratitude for a job well done.

Sincerely,

Ed
